PROFILE

Strategic HR Professional and Master's graduate in Psychology, specializing in the intersection of human behavior and organizational efficiency. Over 4 years of experience in full-cycle HR operations and strategic business partnering. Expert in driving high-performance cultures through HRBP strategies and Agile methodologies. Proven ability to act as a bridge between leadership and technical teams to foster psychological safety, employee engagement, and sustainable growth.

EXPERIENCE

HR Generalist / Strategic HR Partner | Iran Hotel Online (Tourism & E-commerce) — 2022-Present

Played a pivotal role in scaling the HR department and aligning people operations with the strategic business goals of a leading e-commerce and hospitality platform with over 100 employees.

- Spearheading end-to-end Talent Management for 100+ employees, resulting in improved quality of hire and team alignment across the organization.
- Managing complex employee relations and conflict mediation by applying psychological frameworks to maintain a healthy and productive workplace culture.
- Optimized onboarding and offboarding processes, reducing the time-to-productivity for new hires by 20% through structured induction programs.
- Utilizing data-driven HR insights to monitor turnover rates and implement proactive retention strategies.

HR Business Partner (HRBP) & Scrum Master, Rohan Andisheh Sepidnam (Mobile Game Development) | rohangames.ir — 2025-2026

Spearheaded the integration of HR Business Partnering (HRBP) with Agile methodologies to optimize talent performance and project delivery within a high-growth mobile game development environment.

- Integrated HRBP principles within the Agile production cycle to ensure creative talent remained aligned with project delivery milestones.
- Facilitated Scrum ceremonies (Daily Stand-ups, Sprint Planning, Retrospectives) for cross-functional development teams to optimize velocity.

- Coached teams and stakeholders on Agile values and psychological safety to foster a high-trust, collaborative environment.
- Advised leadership on workforce planning and developer retention strategies during high-pressure production phases.
