PROFILE

Strategic HR professional with a background in Psychology and hands-on experience in HR operations and business partnering across digital and product-driven environments. Experienced in talent management, employee engagement, and supporting organizational growth through practical people strategies and cross-functional collaboration. Comfortable working in Agile environments and focused on supporting collaborative, effective, and high-performing teams.

EXPERIENCE

HRBP | Top Fast Technology — 2026-Present

- Partnered with business leaders to align people strategy with organizational goals, driving workforce planning, performance, and talent development across tech teams.
- Led end-to-end employee lifecycle initiatives, including talent acquisition, onboarding, performance management, engagement, and retention.
- Used people analytics and employee insights to identify organizational challenges, improve employee experience, and support data-driven workforce decisions.

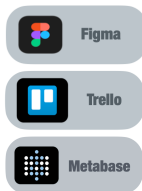

HR Generalist / Strategic HR Partner | Iran Hotel Online (Tourism & E-commerce) — 2022-2026

Played a pivotal role in scaling the HR department and aligning people operations with the strategic business goals of a leading e-commerce and hospitality platform with over 100 employees.

- Managed end-to-end recruitment processes for technical, operational, and cross-functional roles, including candidate sourcing, HR screening interviews, behavioral and soft-skill assessments, interview coordination, onboarding, and employment contract management.
- Supported employee relations and conflict resolution initiatives by applying communication and behavioral assessment skills to maintain a collaborative and productive work environment.
- Improved onboarding and offboarding workflows through structured induction processes, helping improve onboarding consistency and new hire readiness.

- Collaborated with managers on KPI-based performance reviews and contract renewal decisions by coordinating employee evaluations, feedback collection, and performance documentation.
- Utilized HR data and employee feedback insights to support retention initiatives and improve overall employee experience.
- Designed and conducted structured HR interviews and evaluation processes to improve candidate-job fit, team alignment, and hiring quality.

HR Business Partner (HRBP) | Agile Product Environment, Rohan Andisheh Sepidnam (Mobile Game Development) | rohanguames.ir — 2025-2026

Worked as an HRBP alongside product and technical teams within an Agile mobile game development environment, supporting recruitment operations, employee engagement, team collaboration, and people-related processes across development and product functions.

- Managed recruitment operations for technical and cross-functional roles, including candidate sourcing, HR screening interviews, behavioral and soft-skill assessments, interview coordination, onboarding processes, and employment contract management.
- Supported hiring and people operations for product and development-related roles, including developers, designers, QA, and other cross-functional team members.
- Worked closely with product and technical leadership, team leads, and management to support team alignment, improve collaboration, and support the resolution of people and communication challenges within Agile teams.
- Participated in Agile team workflows and Agile retrospective sessions to identify collaboration gaps, employee concerns, and opportunities for improving team dynamics and work processes.
- Assisted in periodic performance review and retention processes by gathering and coordinating performance feedback, team insights, and KPI-related input from product, technical, and cross-functional leadership.

EDUCATION

Master of Science (M.S.) in Psychology IAU, 2022-2024

Bachelor of Science (B.S.) in FUM, 2018-2022
